Applicant <b>DISCOVERY COMMUNICATIONS, INC.</b>		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 06 sheets.

☐ It is also accompanied by a copy of each prior art document cited in this report.

## 1. Basis of the report

- a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

- b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☐ Certain claims were found unsearchable (See Box I).

3. ☒ Unity of invention is lacking (see Box II).

4. With regard to the title,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the abstract,

☒ the text is approved as submitted by the applicant.

☐ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the drawings to be published with the abstract is Figure No.

☒ as suggested by the applicant.

☐ because the applicant failed to suggest a figure.

☐ because this figure better characterizes the invention.

**24b**

☐ None of the figures.

## FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 1-17

Independent claim 1 relates to an electronic book system that comprises: a queue processor that determines a queue location; and two types of queue each for storing sections of electronic books.

2. Claims: 18-28

Independent claim 18 relates to a computer system for distributing electronic books comprising: a processor section for packaging electronic books; a queue section for storing the packaged electronic books; and a queue server that empties the queue section.

3. Claims: 29-37

Independent claim 29 relates to a computer system for distributing electronic books comprising: a queue selection module that determines a queue for storing a packet containing an ordered electronic book and a header section; and a queue service module that determines a priority for delivery of the packet.

4. Claims: 38-50

Independent claim 38 relates to an apparatus for providing electronic books comprising: a main interface that receives a request for a main section of an electronic book; and a main processor that locates the requested main section.

5. Claims: 51-78

Independent claims 51 and 65 relate to a computer-readable medium for controlling an electronic book delivery system including a broadcast module that determines a selection of electronic books for broadcast wherein orders received from readers are based on the selection broadcast to readers.

6. Claim : 79

Independent claim 79 relates to a user interface for ordering and receiving electronic books
